I am a Civil Engineer and have worked as Country Head for 15 years in various reputed organisation, recently I took premature retirement and am constructing my own house in Dayalbagh, Agra. For doors we selected Guntier and my experience with them was excellent, during my house construction I came across various vendors but I found them the best- it was really WOW feeling when I saw the doors installed in our house. The finish was same as what we saw in their showroom and what we were expecting. A very professional team of theirs came for installation. Overall it was a great experience-choosing them and getting what we wanted. I really Salute them for their Superb work and wish them all the very best.

Sir first of all thankyou for your inspiring message , it is an immense pleasure to always work for people who understand the work , and who understand the difference between finishing & finesse.

*Thankyou again

I got my kitchen and cupboards done from Guntier last year. I can safely say that I am a very satisfied customer. Not only is their quality good, their post installation service is also very good! I highly recommend Guntier to anyone who is looking to construct or reconstruct.

I had ordered room doors and a custom made set of sliding doors. As well as a new kitchen. Their product quality is excellent esp of doors. The kitchen is also very good. Their staff are well trained and they complete the installation very quickly and very well. Customer service and experience is not as top of the line as their product quality. But all in all I am very happy with them and would surely recommend them to anyone looking to buy high quality doors and custom kitchens.
